

Lucci Power Smoke Alarm Testing Remote in White

SKU: 299287

Details

The Lucci Power Smoke Alarm Testing Remote is a simple and convenient option for testing and operating your setup of Lucci Power smoke alarms.
The remote wirelessly connects to any Lucci Power smoke alarm with Radio Frequency (RF) Wireless Interconnection capabilities (SKU's 299285 & 299286), and can also test and operate any smoke alarm that has been hard-wire interconnection onto the same smoke alarm network.
The remote allows you to test your smoke alarm network, silence or hush any triggered alarms, and locate which alarm on the network has been triggered, all without needing to climb up a ladder and physically press a button on the smoke alarms themselves.
The smoke alarm remote features an integrated 3V DC Lithium Ion Battery with a rated battery life of 10 years, and is covered by a 10 year warranty, ensuring longevity and reliability.
Protect you home with the Lucci Power smoke alarm range, and add convenience and peace of mind with the Lucci Power Smoke Alarm Testing Remote.
