

Lumina Floor Base Only for Magnifying Task Light in White

SKU: 250559

Details

The Lumina magnifying task lamp in white is designed for detailed close-up work with an adjustable arm and integrated magnifying lens. The functional design provides flexibility and focused illumination for crafting, hobbies and workspace applications. An integrated LED delivers a 6500K daylight white output for bright, clear task lighting, while the 3x magnification lens assists with precision work and fine detail visibility. The adjustable arm allows light and magnification to be positioned where needed, with an optional floor lamp base available separately for additional installation flexibility.
