Made by Mayfair Cadence LED Colour Switching Wall Bracket in Brushed Chrome with Spanish Alabaster

SKU: 197071

Details

The Cadence vanity light blends contemporary design with a subtle nod to Art Deco elegance. Crafted from natural Spanish alabaster and paired with refined aged brass or brushed chrome detailing, it delivers a soft, sculptural glow that enhances modern bathroom spaces. The streamlined form looks striking positioned either side of a mirror or used as a standalone statement, bringing warmth and sophistication to the room.
Integrated LED lighting features adjustable CCT technology. Select your desired colour temperature during installation—Warm White, Natural White or Cool White—or choose our innovative Scene Control feature. Scene Control allows you to change the light colour using a standard wall switch, shifting from crisp task lighting for daily routines to a softer, more ambient tone for relaxed evening settings. The light is also dimmable, allowing you to further tailor the brightness to suit the moment.
With an IP44 rating, the Cadence vanity light is designed for safe use in bathroom wet zones, combining elegant design with practical performance.

Specifications

SKU	197071
