SKU: 039292

$579.00 (inc GST)

Details

Designed in Australia

A refined expression of form and function, the Luella wall light is an original Made by Mayfair design, conceived in Australia and guided by a commitment to authentic materials and enduring design. Its balanced dual-light composition brings a sense of symmetry and quiet sophistication to hallways, bedrooms, and living spaces, reflecting a considered design lineage shaped by material, light and form.

Provenance of Stone

Each shade is crafted from premium Spanish alabaster, sourced from the same historic quarry celebrated for supplying the iconic Sagrada Família. Known for its exceptional purity and luminous quality, this rare stone softly diffuses light while revealing delicate, organic veining. As a natural material, every piece is inherently unique, with subtle variations that enhance its individuality. With quarry reserves gradually diminishing, its rarity only deepens over time.

Material Integrity

Defined by bold structure and precisely detailed fittings, Luella reflects a commitment to craftsmanship and strength. The black finish introduces a striking, contemporary edge, complementing the soft, diffused glow of the alabaster while reinforcing its architectural presence.

Lighting Experience

Luella includes warm white G9 LED globes, so there is no need to purchase globes separately. Their inviting warm white light creates a welcoming atmosphere in bedrooms, hallways and living spaces, pairing energy-efficient LED illumination with the natural beauty of Spanish alabaster. The stone gently diffuses the light into a soft, ambient glow, highlighting its delicate veining and bringing warmth and depth to your interior.

Engineered for Longevity

Designed to meet stringent Australian standards, this wall light ensures lasting performance and reliability—supporting both longevity and peace of mind.

Confidence in Every Detail

Supported by premium in-home warranty service and the

reassurance of a trusted brand, Luella is a refined expression of material integrity and architectural lighting—where rare material, precision detailing and advanced lighting technology are resolved without compromise.

Specifications

SKU	039292
