Details

Panama is reminiscent of classic candelabra designs, with pillars of Spanish stone effortlessly balanced upon a fine metal plinth. Light emanates from within each pillar, enhancing the beauty of the stone's unique formations. Casting an uneven light through a naturally formed material provides an extra sense of depth, while the hand-carved pillars give it a striking and artistic feel. Available in brass or black with alabaster shades, the Panama collection comes with tri-colour technology from the wall and dimmable LED lighting.
