Details

The Made by Mayfair Seaside collection is characterised by extraordinary visual depth, richly nuanced materials, and meticulous craftsmanship. Now available in a pre-aged Verdigris finish, the Made by Mayfair Seaside range of exterior lighting combines enduring quality with a distinct coastal aesthetic. Cast from solid bronze, each fitting is built to withstand Australia's harshest outdoor environments, including coastal areas, while offering an elegant and sophisticated look for your home's exterior. The Verdigris patina is developed through a pre-aging process, resulting in a soft teal-green surface that deepens naturally over time. With a selection of wall, up/down, step and garden lighting options available – including the Escarpment model with a natural alabaster shade – the Seaside range provides a cohesive and refined solution for premium outdoor lighting. As alabaster is a natural material, each shade will feature subtle variations, making every piece unique.
