Details

The Made by Mayfair Seaside range of exterior lighting is built to last. Cast in nickel, they have superior anti-corrosion properties and can tolerate the harsh climatic conditions of coastal living. Use the Seaside exterior range to transform your home's façade by highlighting columns and doorways or either side of the exterior of a garage. This fitting begins to develop its distinctive patina as soon as it's exposed to the environment, with natural variations in colour and tone adding to its unique character over time.
