

Marine 142cm DC Fan with Light in Marine Grade Stainless Steel

SKU: 213250

$695.00 (inc GST)

Details

Engineered for durability in the harshest coastal environments, the Marine fan is crafted from #316 marine-grade stainless steel. Its sleek, modern design conceals a powerful DC motor and an integrated light with adjustable colour temperature – from 3000K to 5000K – to suit any mood or setting. With an IPX5 rating, this fan is built to resist salt, moisture and outdoor conditions, making it ideal for exposed alfresco areas.

DC Motor - Efficient, Cost Saving, and Quiet

The most energy-efficient ceiling fans on the market right now are DC or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run. Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

Remote Control

6-speed rechargeable remote control. *USB-C cord and charger are not included. For instructions on how to pair the remote, please follow the steps in this video: Remote Pairing

Smart Compatible

Insert the Lucci Connect Wi-Fi Module (sold separately **-** 216180) into the receiver to activate smart functionalities. Once paired with the Lucci Connect app, you can turn your fan on/off, adjust its speed, set timers, and even create schedules based on the temperature outside.

Optional Light

Versatility to use light with included GX53 globe, or use included cap to cover the socket for a no light option. The GX53 globe included has colour changing technology (warm-white, cool-white and daylight), and can be smooth dimmed via the remote control.

Coastal Rating

Suitable for indoor, alfresco, and coastal areas provided the fan is fully undercover, protected from water, wind, and dust, with a minimum of 1 wall.

Ingress Protection Rating
Comes with an IPX5 rating, ensuring excellent protection against dust and water for enhanced durability in challenging environments.

Recommended Room Size
For rooms between 4m x 4m or greater, we recommend a fan between 142cm and above.

2-Year In-Home + 7-Year Motor Replacement Warranty
We provide a 2-year in-home warranty and a 7-year motor replacement warranty on all hard-wired Lucci or Fanaway fans that were purchased from 1st October 2022. Plus, if you have your fan purchased or installed by a Beacon Lighting Trade member, we'll extend your in-home warranty on the nominated Lucci or Fanaway fan for an extra 1 year, which means you'll enjoy a 3-year in-home warranty.
