Mett DC Inline Axial Exhaust Fan Only

SKU: 209060

$119.00 (inc GST)

Details

The Mett DC Inline Axial Exhaust Fan is an energy-efficient in-line exhaust system designed for smaller bathrooms, ensuites and laundries, combining effective airflow with flexible installation. Delivering 240 cubic metres per hour airflow with quiet 33.6dB operation, this compact DC fan helps extract steam, humid air and lingering odours from moisture-prone spaces.

Thanks to its in-line design, the motor can be positioned away from the ceiling vent to help reduce noise within the room. This allows the faceplate to be positioned above showers or other humid zones for effective ventilation where it is needed most.

Note: This product includes the fan motor only. Compatible 150mm ducting, faceplates and external vent components are sold separately.

TIP:

For enhanced moisture control, add a run-on timer, sold separately, to keep the fan running after use, helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team. We use a handy airflow calculator to help you pick the right model.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.

Specifications

SKU	209060
Colour/Finish	White
Airflow	240m3/h
Globe Included	false
Globe Quantity	0
Voltage	240V
Current	DC
Fan Motor Wattage	7W

Decibels	33.6
Rpm	0
Brand	Lucci Air
Style	Modern
Warranty	3 years

Dimensions

Height (mm)	160
Width (mm)	200
Depth (mm)	100
Weight (kg)	0.35
Box Height (mm)	227
Box Depth (mm)	347
Box Width (mm)	427
Cable Length	1400mm
