

Mett IP Round Exhaust Fan with 240mm Dia Cut Out in White

SKU: 209039

$179.00 (inc GST)

Details

The Mett IP water-resistant exhaust fan is our go-to all-rounder—blending modern efficiency with a clean, matte finish that suits any small to medium-sized bathroom. Designed for direct installation above showers, its IP24 rating ensures safe use in wet areas, while the built-in backdraft stopper prevents the return of air, pests, and odours. The minimalist fascia and compact form make it a builder's favourite, offering the perfect balance of aesthetics and performance. It works with 125mm ducting (sold separately) and installs easily using durable pivot clamp clips and a flex plug and lead for a fast, straightforward setup. This centrifugal-style fan delivers reliable extraction where you need it most, helping to reduce steam and moisture for a fresher space. A remote control is also available separately for added convenience.

TIP:

For enhanced moisture control, add a run-on timer (sold separately) to keep the fan running after use—helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team—we use a handy airflow calculator to help you pick the right model.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
