

MFL Artisan LED Spotlight in Black

SKU: 151087

\$189.00 (inc GST)

Details

The Artisan LED spotlight is designed to integrate with the MFL Artisan customisable lighting system, offering a compact directional spotlight option finished in white or black. The minimalist cylindrical head delivers focused lighting while maintaining a clean, contemporary appearance. Featuring an integrated LED light source, the fitting provides adjustable colour temperatures from 3000K to 5000K, allowing the light tone to be tailored to suit different settings. The spotlight also offers tilt up to 90° and rotation up to 350°, making it easy to direct light precisely where it is needed. Designed to work with the Artisan range of decorative plates and lighting components, the spotlight can be combined with other elements to create layered lighting solutions suited to bedside lighting, study areas or task-focused spaces.
