

MFL Solstice 800mm LED Adjustable Pendant in Bronze

SKU: 027086

Details

The Solstice pendant merges functionality with sleek, artistic design. Its conical shape and refined lines create the illusion of a floating sculpture supported by slender wires for an ethereal touch. Anchored by a solid weight, it features an adjustable lower shade to modify the light beam spread, perfect for creating either intimate or inclusive atmospheres. A soft light outflow from the upper shade adds to the ambience.
Inspired by mid-century design and updated with a minimalist, modern touch, the Solstice is ideal for dining spaces. It is available in four elegant colours: clean minimalist chalk white, dramatic black, fresh brushed chrome and sophisticated bronze.
The pendant incorporates advanced LED Scene Change via Wall Switch technology with dimmable, adjustable correlated colour temperature (CCT), allowing the light's colour temperature to be tailored to the time of day or desired mood. Transition seamlessly from a cool morning light to a warm evening glow, ensuring the perfect lighting ambience for any moment.
