

Panasonic DC 24 Hour Ventilation and Exhaust Fan with Motion Sensor and Run-on Timer

SKU: 209085

Details

Panasonic DC 24 Hour Ventilation and Exhaust Fan with Motion Sensor and Run-on Timer (FV-24JR4)

Improve your indoor air quality with Panasonic's FV-24 range of innovative ceiling-mounted exhaust fans. Thanks to their direct current (DC) motors, these exhaust fans provide whisper quiet operation and energy-efficient performance while using just 4.3W of power on its lowest setting.

Other important features:

24-hour ventilation mode and built-in 15-minute run-on timers to prevent mould growth in spaces prone to constant dampness

Intelligent technology automatically maintains constant air volume by sensing changes to air pressure

Noise dampening double chamber design for quiet operation – even at higher speeds

3-year parts and labour warranty

Want more out of your exhaust fan? The Sensor Model (FV-24JR4) is equipped with an intelligent motion sensor that switches on automatically when you enter the room and switches off when you leave.

About Panasonic

Widely considered as a leader in air conditioning and ventilation, Panasonic has been a trusted brand worldwide for over 100 years with a focus on product innovation and improving people's lives. Panasonic appliances are renowned for their reliability - tried, tested and top rated.
