

Piatto LED Rechargeable Battery Sconce in Bronze

SKU: 300967

$39.95 (inc GST)

Details

Piatto Rechargeable Wall Light

The Piatto rechargeable wall light makes it easy to add ambient lighting without the need for hardwiring. Its slim circular design creates a soft halo effect, making it an ideal choice beside a bed, along hallways or as feature lighting throughout the home. Powered by an integrated rechargeable battery, Piatto charges conveniently via USB-C, reaching a full charge in approximately 5 hours and providing up to 10 hours of cordless illumination, or around 5 hours when used continuously at full brightness. Designed for quick installation, it can be mounted using the included bracket with screws or double-sided tape, making it perfect for spaces where traditional wall lights aren't practical. Touch controls allow you to dim the light and select between warm, cool and daylight colour temperatures to suit every mood and task. Available in chalk white and bronze finishes, Piatto is engineered to meet stringent quality control and Australian safety standards for lasting confidence.

TIP

Use Piatto as a bedside reading light or install multiple fittings along a hallway to create a soft, welcoming glow without the need for electrical wiring.

Specifications

SKU	300967
