Pip LED Colour-Switching Round Flare Step Light in White

SKU: 300616

Details

Pip Step Light Collection

The Pip step light is a compact and versatile solution for illuminating steps and pathways with style. Featuring 3-way CCT technology, you can select your preferred colour temperature during installation to design the perfect ambience for your space. Available with removable faceplates in three distinct designs, the Pip step light offers customisation to suit your aesthetic preferences. Each design casts a unique light spread on surrounding surfaces, adding functionality and visual interest. With its sleek LED technology, the Pip step light ensures energy-efficient, low-maintenance lighting for interior settings, combining practicality with subtle elegance.

TIP: Install Pip step lights at evenly spaced intervals along stairs, approximately 15-20 cm above each step, to provide safe illumination and an appealing visual effect without overpowering the space. For hallways, place them lower on walls to create a soft, guiding glow.

Specifications

SKU	300616
