

## Pixel 1 Light DIY Surface Mount in White

SKU: 080431

### Details

Achieving an architectural look has never been so easy - with this world-first innovation!

Pixel in white is the first-ever surface mounted downlight that can be installed right over the top of an existing batten, without the need for an electrician.

Now you can have a designer aesthetic in a few simple to follow steps;

1. Remove your boring old batten shade.
2. Attach the Pixel frame.
3. Insert your globe.
4. Twist on the Pixel sleeve.

Pixel Surface Mounted Downlights are a great way to achieve a clean and modern look, casting pools of light onto work surfaces with minimal glare.

Ideal for flooding benchtops with light, creating a glare-free ambience in a living space, or transforming a hallway into an architecturally inspired gallery. Also available in black.

Exclusive to Beacon Lighting.
