

Powermesh Double GPO in Black

SKU: 299187

$159.00 (inc GST)

Details

The Powermesh power point is so much more than a normal power point. App and voice control provide a totally new way to manage appliances in the home for complete convenience, safety and security.
The Power Lock feature prevents switches from being turned on for safety in the home, or when you need to restrict access to the power. Monitor the energy use of each socket in real-time and see the cost in dollars and cents for anything that is plugged in. Take control of all your power points anywhere, anytime with the free Zimi app. Switch them on and off, set automatic schedules, auto off timers, check energy use and also share your Powermesh network with family members, so everyone has smart control on their phone.
Voice control* your appliances for hands-free convenience, using either Google Assistant, Amazon Alexa or Siri Shortcuts. 'Turn on the garden lights at sunset'. 'Turn off the game console at 5pm'. Add a power point command to a Voice Routine and automate multiple things all with a single phrase.
*Voice control requires the Zimi Cloud Connect (sold separately), a compatible smart home speaker, and an active internet connection.
Visit www.zimi.life to learn more about how you can make life easier and smarter every day.
