

Reno 3 Light Round Spotlight in Black

SKU: 151091

Details

The Reno features a three-light spotlight design mounted on a round ceiling plate, available in textured white or textured black finishes. The compact cylindrical spot heads sit neatly around the plate, creating a clean, modern profile suited to contemporary interiors. Each spotlight includes a GU10 lamp holder with adjustable tilt up to 90° and rotation up to 350°, allowing light to be directed exactly where it is needed. The close-to-ceiling design makes it ideal for spaces where a low-profile multi-light fitting is preferred. The round backplate is designed to help cover existing ceiling cut-outs or marks from previous downlights or smaller fittings, making it a practical option for renovation projects. With simple twist-off shades for easy globe installation, the Reno Round Spotlight provides flexible directional lighting for bedrooms, living spaces and utility areas.
