

Repeat 1.5m LED Pendant in Brushed Nickel with Latte Marble

SKU: 020982

$695.00 (inc GST)

Details

Designed for The Block 2026, the Repeat linear pendant is a considered collaboration between interior designer and Block contestant Sevilay “Sev” Keser and award-winning Beacon Lighting product designer David Kruse.

Created specifically for Sev and Courtney’s kitchen, the pendant was developed as an integral part of the interior rather than simply a finishing touch. Sev’s background in commercial interior design and experience across residential and retail spaces brings a strong understanding of material, proportion and spatial design to the collaboration.

Working together, Sev and David drew inspiration from the finishes and architectural elements surrounding the kitchen. Brushed nickel, warm latte marble and a refined linear form bring together the metallic, stone and tonal elements within the space, creating a cohesive feature that feels connected to the interior while still making a striking statement above the kitchen island.

At 1.5 metres long, the Repeat pendant has been designed to provide generous, even illumination across kitchen islands, dining tables and other large surfaces. Integrated LED lighting offers a choice of 3000K, 4000K or 5000K colour temperatures, while dimmable functionality makes it easy to move between practical task lighting and a softer evening ambience.

For larger spaces, two Repeat pendants can be connected using the coordinating latte marble joiner accessory (sold separately), creating an impressive 3 metre linear pendant installation – as featured in Sev and Courtney’s kitchen on The Block 2026.

The result is a statement pendant where interior design and product design come together: sculptural enough to define a space, considered enough to complement it, and practical enough for everyday living.

Only 100 Repeat pendants have been produced, making this an exclusive, limited-edition design. Available online only at Beacon Lighting, while stock lasts.

Specifications

SKU	020982
Colour/Finish	Brushed Nickel/Latte Marble
Dimmable	Yes
Globe Type	Integrated LED
Globe Quantity	1
Wattage Max	40W
Kelvins	3000K/4000K/5000K
Lumens	2800
CRI	>90
Efficacy	70
Colour Temperature	Warm White, Cool White, Day Light
Material	Aluminium + Polycarbonate + Marble
Voltage	240V
Suspension	2000mm
Warranty	3 years
Brand	Lucci
Style	Modern
Downlight Technology	Scene Change via Toggle
