Saint 290mm LED Colour Switching Flush Mount in White

SKU: 181080

Details

The Saint small CCT LED flush mount is a compact ceiling light designed to provide clean, even illumination in smaller rooms. Finished in white, it features a deep trim with an edge-lit profile that creates a subtle halo effect around the fitting.
This flush mount delivers 1,100 lumens from an 18W output, with selectable colour temperatures of 3000K, 4000K or 5000K adjusted via a toggle switch on the fitting. Dimmable functionality allows light levels to be tailored when used with compatible dimmers, while a colour rendering index above 90 supports accurate colour appearance. With a diameter of 29 centimetres, the Lucci Saint small flush mount suits compact spaces such as bedrooms, hallways and study areas.
