Large Format Retail Association LFRA - Best application of Innovation award 2023

Sanso EvOne is an innovative, design patented 3-in-1 air purifier, ioniser and multi-functional light designed in Australia by Beacon Lighting's in-house design team.

Sanso EvOne has set a new benchmark in air purifiers and multi-functional lighting, showcasing the remarkable synergy between design and functionality. A single product that circulates and purifies the air you breathe, reducing the risk of Asthma and allergies while also providing an adaptable lighting solution that helps maintain a healthy circadian rhythm. Not to mention, Sanso EvOne does all this without cluttering any floor space!

LIVE WELL

Our world-leading Live Well Day Night Sleep LED light is engineered to help you get the most out of your day, increase concentration and improve your sleep while providing better eye comfort thanks to its reduced flicker technology.

At night, settings reduce blue light and lower the colour temperature and brightness to promote the production of melatonin, the hormone which prepares your body and mind for sleep.

During the day, Sanso EvOne can fill your home with energy-boosting light that is scientifically proven to make you feel more alert and energised.

HEPA 13 FILTER

A custom-designed, replaceable HEPA13 filter is at the heart of every Sanso air purifier, removing the finest pollutants and allergy-causing spores and pollens.

Delivering a CADR of 100m³/h, Sanso EvOne is ideal for bedrooms, home offices and living rooms. For optimal purification performance, Sanso EvOne is recommended for rooms measuring up to 12m².

IONISER

Working alongside the HEPA filter, the ioniser creates and disperses negative ions that act like 1000s of magnets, clinging

to nasty dust particles and pulling them straight out of the air.

INTUITIVE SENSORS

Built-in sensors monitor pollution levels and automatically adjust settings to ensure your home remains clean and safe at all times.

ADAPTABLE SETTINGS

An integrated 3-speed fan provides constant clean air throughout your space, helping you feel refreshed, improving overall air circulation and reducing the need for additional fans and climate control devices.

ULTIMATE CONTROL

The intelligently designed remote control provides access to additional functions like convenient timers, powerful burst settings and even a sleep mode that reduces noise levels and deactivates indicator lights.

Specifications

SKU	089200
Colour/Finish	White
Airflow	100m3/hour
Location	Indoor Use Only
Globe Included	true
Colour Temperature	Warm White/Cool White
Kelvins	2700K/4000K
Lumens	1800
Dimmable	No
Wattage Max	16W
Globe Quantity	1
Globe Type	GX53
Efficacy	112.5
Voltage	240V
Fan Motor Wattage	17
Decibels	60
Rpm	0
Brand	Lucci
Style	Modern
Warranty	2 years
