

Sync LED Up/Down Rounded Wall Sconce in White

SKU: 231475

$129.00 (inc GST)

Details

Bring a softer edge to minimalist exterior lighting with the Lucci Sync LED Up/Down Rounded Wall Sconce in White. A rounded profile and clean white finish create a subtle architectural detail, while the concealed light source keeps the fitting visually simple. Up/down illumination adds definition to walls without overwhelming a pared-back design scheme.

Design and Styling

At 190mm wide, 90mm high and just 30mm deep, this slim outdoor LED wall light integrates neatly into entrances, pathways and exterior entertaining areas. Its die-cast aluminium and plastic construction supports a practical, understated design. Coordinate the white finish with pale render and neutral materials for a cohesive exterior.

Lighting Experience

The integrated 6W LED delivers 500 lumens with a choice of 3000K warm white, 4000K cool white or 5000K daylight, selected via the toggle. Choose warm white for a welcoming atmosphere, cool white for a crisp look or daylight for a brighter-toned lighting scheme. The up/down light distribution adds interest above and below the fitting.

Outdoor Performance

With an IP65 rating and coastal suitability, this exterior wall sconce is designed for outdoor use, including coastal settings. A 5-year warranty adds reassurance.

Explore the Sync Family

The Sync family also includes square and rounded wall sconces in black or white, alongside natural travertine and lava stone designs for a more textured architectural look.
