

Sync LED Up/Down Square Wall Sconce in Black

SKU: 231472

$129.00 (inc GST)

Details

Define your exterior with the Lucci Sync LED Up/Down Square Wall Sconce in Black. A crisp, square-edged profile and minimalist black finish create a confident architectural accent without visual clutter. The concealed light source keeps the focus on the up/down illumination, making this outdoor LED wall light a considered choice for modern facades and feature walls.

Design and Styling

At 175mm wide, 90mm high and just 30mm deep, this slim wall sconce sits neatly against the wall. Its die-cast aluminium and plastic construction suits a streamlined lighting scheme beside entrances, along pathways or around exterior entertaining areas. Use the black finish to introduce contrast against pale render, stone or timber.

Lighting Experience

The integrated 6W LED delivers 500 lumens with a choice of 3000K warm white, 4000K cool white or 5000K daylight, selected via the toggle. Choose warm white for a welcoming atmosphere, cool white for a crisp look or daylight for a brighter-toned lighting scheme. The up/down light distribution adds interest above and below the fitting.

Outdoor Performance

With an IP65 rating and coastal suitability, this exterior wall sconce is designed for outdoor use, including coastal settings. A 5-year warranty adds reassurance.

Explore the Sync Family

The Sync family also includes square and rounded wall sconces in black or white, alongside natural travertine and lava stone designs for a more textured architectural look.
