

Sync LED Up/Down Square Wall Sconce in White

SKU: 231473

$129.00 (inc GST)

Details

Create a clean, cohesive exterior with the Lucci Sync LED Up/Down Square Wall Sconce in White. Its crisp, square-edged profile and minimalist white finish complement light-coloured walls and contemporary architecture. A concealed light source maintains the understated appearance, allowing the up/down illumination to bring definition to your facade.

Design and Styling

Measuring 175mm wide, 90mm high and just 30mm deep, this slim outdoor LED wall light adds function without a bulky silhouette. Made from die-cast aluminium and plastic, it suits entrances, pathways and exterior entertaining areas. Pair the white finish with pale render or neutral stone for a softly integrated look.

Lighting Experience

The integrated 6W LED delivers 500 lumens with a choice of 3000K warm white, 4000K cool white or 5000K daylight, selected via the toggle. Choose warm white for a welcoming atmosphere, cool white for a crisp look or daylight for a brighter-toned lighting scheme. The up/down light distribution adds interest above and below the fitting.

Outdoor Performance

With an IP65 rating and coastal suitability, this exterior wall sconce is designed for outdoor use, including coastal settings. A 5-year warranty adds reassurance.

Explore the Sync Family

The Sync family also includes square and rounded wall sconces in black or white, alongside natural travertine and lava stone designs for a more textured architectural look.

Specifications

SKU	231473
