

Sync LED Up/Down Wall Sconce in Lava Stone

SKU: 231471

$199.00 (inc GST)

Details

Add depth and natural character to your exterior with the Lucci Sync LED Up/Down Wall Sconce in Lava Stone. The lava stone face brings a tactile, grounded quality to modern architecture, while the slim form and concealed light source maintain an uncluttered look. This stone outdoor wall light pairs beautifully with concrete, timber and layered neutral finishes.

Design and Styling

Measuring 192mm wide, 90mm high and 42mm deep, this lava stone wall sconce offers an understated feature for entrances, pathways and outdoor entertaining areas. Lava stone, die-cast aluminium and plastic combine in a design that puts natural texture at the centre of the scheme.

Lighting Experience

The integrated 6W LED delivers 500 lumens with a choice of 3000K warm white, 4000K cool white or 5000K daylight, selected via the toggle. Choose warm white for a welcoming atmosphere, cool white for a crisp look or daylight for a brighter-toned lighting scheme. The up/down light distribution adds interest above and below the fitting.

Outdoor Performance

With an IP65 rating and coastal suitability, this exterior wall sconce is designed for outdoor use, including coastal settings. A 5-year warranty adds reassurance.

Explore the Sync Family

The Sync family also includes lava stone and natural travertine finishes, plus square and rounded wall sconces in black or white, giving you options to coordinate lighting across different spaces.

Specifications

SKU	231471
