

Sync LED Up/Down Wall Sconce in Travertine

SKU: 231470

$199.00 (inc GST)

Details

Bring natural texture to your exterior with the Lucci Sync LED Up/Down Wall Sconce in Travertine. The natural travertine face adds warmth and understated character, while a slim profile and concealed light source keep the design clean and architectural. This stone outdoor wall light complements earthy palettes, textured render and contemporary coastal homes.

Design and Styling

Measuring 192mm wide, 90mm high and 42mm deep, this travertine wall sconce creates a refined accent beside entrances, along pathways and on feature walls. Its combination of travertine, die-cast aluminium and plastic balances decorative detail with practical construction.

Lighting Experience

The integrated 6W LED delivers 500 lumens with a choice of 3000K warm white, 4000K cool white or 5000K daylight, selected via the toggle. Choose warm white for a welcoming atmosphere, cool white for a crisp look or daylight for a brighter-toned lighting scheme. The up/down light distribution adds interest above and below the fitting.

Outdoor Performance

With an IP65 rating and coastal suitability, this exterior wall sconce is designed for outdoor use, including coastal settings. A 5-year warranty adds reassurance.

Explore the Sync Family

The Sync family also includes lava stone and natural travertine finishes, plus square and rounded wall sconces in black or white, giving you options to coordinate lighting across different spaces.

Specifications

SKU	231470
