

Taylor Solar LED Bollard with Sensor in Black

SKU: 221120

Details

The Taylor solar bollard offers a sleek, minimalist design with practical flexibility for garden and pathway lighting. Finished in black with a modern silhouette, it features a modular 3-piece rod system that allows installation at three different heights – with maximum motion detection range achieved at full height. Built for coastal conditions with an IP54 rating, the Taylor includes an integrated PIR sensor that activates the light at 15% brightness for the first six hours when ambient light drops below 30 lux. It increases to 100% when motion is detected, and after six hours, switches off but still responds to motion at full brightness. The cycle resets once ambient lux rises above 40. Charging takes approximately 9 hours via solar or 5 hours via USB-C, providing over 8 hours of operating time. Backed by a 5-year warranty.

Specifications

SKU	221120
Colour/Finish	Black
Dimmable	2-stage Auto-dimming
Ip Rating	IP54
Globe Type	Integrated LED
Globe Quantity	0
Wattage Max	2W
Kelvins	3000K
Lumens	250
CRI	>80
Efficacy	125
Colour Temperature	Warm White
Location	Coastal Use
Material	Aluminium
Voltage	3.7V
Battery Life	8+ Hours

Battery Included	Yes
Charge Time	5-10 Hours
Warranty	5 years
Brand	Lucci
Style	Modern
