

ThermaBreeze 4-in-1 Bathroom Heater with Cool Air Fan, Exhaust Fan and CCT LED Light in White

SKU: 200040

$695.00 (inc GST)

Details

The ThermaBreeze 4-in-1 exhaust fan with PTC blow heater, fan, and LED light is a high-performance climate solution designed for medium to larger bathrooms and ensuites. At its core is a PTC (Positive Temperature Coefficient) ceramic heater, engineered to efficiently warm the entire room—unlike traditional infrared heat lamps that only heat directly beneath them. This intelligent heating technology delivers fast, even warmth across the space, while integrated swing louvres help disperse warm air evenly throughout the room.

A built-in exhaust fan with a fan-only mode provides effective ventilation and cooling for year-round comfort, helping to remove steam and moisture while maintaining a fresh environment. The integrated LED light panel features adjustable CCT technology, allowing you to shift between warm and cooler light tones to suit your routine. Control is simple with the included remote, which also features a timer function and night light mode for softer illumination when required.

The powerful LED panel ensures bright, balanced illumination, while the ultra-minimalist fascia sits neatly flush with the ceiling for a refined, architectural finish. When switched off, the light panel appears almost invisible, allowing the unit to blend seamlessly into modern bathroom ceilings.

Installation is quick with durable pivot clamp clips, and the unit includes 150mm ducting, an external vent, and a built-in backdraft stopper to help prevent unwanted air return.

TIP:

For optimal performance, ensure the exhaust fan airflow suits the size of your bathroom to effectively remove steam and maintain a comfortable environment.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.

Specifications

SKU	200040
Colour/Finish	White
Airflow	330m3/h
Remote Control	Included
Globe Included	false
Colour Temperature	Warm White, Cool White, Day Light
Kelvins	3000K/4000K/5000K
Lumens	1100
Dimmable	Night Light via Remote
Wattage Max	20W
Fanlight Available	Included
Globe Quantity	0
Globe Type	Integrated LED
Efficacy	55
Voltage	240V
Current	DC
Fan Motor Wattage	40W
Decibels	51.4
Rpm	0
Brand	Lucci Air
Style	Modern
Warranty	3 years
