

Thermalite 3-in-1 Bathroom Heater, Exhaust Fan and Light in Silver with 2x 275W Heat Lamps

SKU: 200027

Details

The Thermalite 3-in-1 bathroom heater is a compact and practical solution for small bathrooms and ensuites. This everyday essential combines heating, lighting, and ventilation in one ceiling-mounted unit—perfect for creating comfort in tighter spaces. Two replaceable 275W radiant heat lamps provide immediate warmth, using infrared technology to gently heat your body rather than the surrounding air. Ideal for installation above the drying zone, it brings cosy relief on chilly mornings. A cool white LED globe offers clear, practical lighting, while the built-in exhaust fan helps reduce steam and humidity. It works with 125mm ducting (1.5m included) and includes a backdraft stopper to prevent re-entry of air and odours. IPX4 rated, it's safe for use in wet areas, and the removable faceplate ensures easy cleaning and maintenance.
TIP: For ultimate air extraction, we recommend pairing this unit with a standalone exhaust fan positioned directly over the shower. A remote control is also available separately for added convenience. Not sure what's right for your space? Our team can help you choose using our handy airflow calculator.

Specifications

SKU	200027
Colour/Finish	Silver
Airflow	310m3/hour
