

Thermalite Deluxe 3-in-1 Bathroom Heater, Exhaust Fan and Light in Silver with 4x 275W Heat Lamps

SKU: 200033

$179.00 (inc GST)

Details

The Thermalite Deluxe 3-in-1 bathroom heater is a dependable all-rounder for small to medium-sized bathrooms, delivering heating, lighting, and ventilation in one classic ceiling-mounted unit. Four replaceable 275W radiant heat lamps deliver instant, direct warmth—ideal for drying off on cold mornings. This style of infrared heating warms your skin and body rather than just the air, making it perfect for placement directly above your drying area. With dual heat modes, you can switch between high and low settings for personalised comfort, while the 12W cool white LED globe ensures bright, clear illumination. The built-in exhaust fan helps manage steam and humidity, and the unit is IPX4 rated for safe use in wet areas. It works with 125mm ducting (1.5m included), includes a backdraft stopper to prevent re-entry of air and odours, and features a removable faceplate for easy cleaning. A 4-gang wall switch is also included for convenient, separate control of all functions.

TIP:

For enhanced air extraction, pair this unit with a standalone exhaust fan placed directly over the shower. A remote control is also available separately. Need help choosing the right setup? Our team uses a handy airflow calculator to guide you.
