

Thermalite Pro 3-in-1 Bathroom Heater, Exhaust Fan and LED Light in White

SKU: 200295

\$595.00 (inc GST)

Details

The Thermalite Pro 3-in-1 bathroom heater brings together everyday comfort and a clean, low-profile design—ideal for medium-sized bathrooms. Its sleek form and discrete vents suit modern interiors, while the combination of warmth, ventilation, and light supports daily routines with quiet efficiency. Two radiant heat lamps with dual high/low settings provide immediate warmth, using infrared technology to gently heat your body rather than the surrounding air. Ideal for installation above the drying zone, it brings cosy relief on chilly mornings. A serviceable LED panel offers practical illumination, with CCT colour selection available at installation to suit your desired colour choice. The built-in exhaust fan includes a backdraft stopper and connects to 150mm ducting and external vent (included), helping manage steam and humidity. A 4-gang wall switch allows separate control of each function for simple, tailored use.

TIP:

For optimal air extraction, pair this unit with a standalone exhaust fan placed directly over the shower. A remote control is also available separately. Need help choosing the right setup? Our team uses a handy airflow calculator to guide you.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
