

Uno Recessed Inline Exhaust Fan Kit with 255mm Cut Out in White

SKU: 209057

\$249.00 (inc GST)

Details

The Uno Recessed Inline Exhaust Fan Kit is a streamlined ventilation and lighting solution for small to medium-sized bathrooms, ensuites and laundries. Complete with an inline fan, recessed GX53 light kit, ducting and external outlet grille, it ducts humid air outside to help reduce condensation, mould and lingering odours. Delivering 300m³/h airflow through the fully assembled ducted kit, it also accommodates a replaceable GX53 LED globe, sold separately, for efficient, adaptable illumination.

TIP

Allow fresh air to enter through a doorway gap or open window to support effective extraction and airflow.

Certified Airflow Performance

This fan has been tested in accordance with the internationally recognised ISO 5801 standard, validating its 300m³/h airflow performance with the included 1m and 3m ducting installed.
