Details

Blending timeless elegance with modern functionality, the Valerian fan brings a refined classic look to interior spaces. Featuring an aged brass body, walnut timber blades and a genuine alabaster shade, it offers a sophisticated focal point for living rooms and similar settings.
Alabaster is a naturally occurring material, so there will be slight variations in pattern, which makes every piece unique.

DC Motor - Efficient, Cost Saving, and Quiet

The most energy-efficient ceiling fans on the market right now are DC or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run.
Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

Remote Control

6-speed rechargeable remote control. *USB-C cord and charger are not included. For instructions on how to pair the remote, please follow the steps in this video: Remote Pairing

Smart Compatible

Insert the Lucci Connect Wi-Fi Module (sold separately **-** 216180) into the receiver to activate smart functionalities. Once paired with the Lucci Connect app, you can turn your fan on/off, adjust its speed, set timers, and even create schedules based on the temperature outside.

Integrated Light

Comes with a GX53 globe included, which has colour changing technology (warm-white, cool-white and daylight), and can be smooth dimmed via the remote control.

Indoor Rating

Suitable for indoor use only.

Recommended Room Size

For rooms between 4m x 4m or greater, we recommend a fan between 142cm and above.
