

Vynco PIR Sensor in Black

SKU: 299436

$149.00 (inc GST)

Details

Introducing the Vynco sensor mech, an ideal solution for enhancing convenience and energy efficiency in low-use areas such as hallways, stairwells, and toilets. With its versatile design, this sensor mech can be fitted to any 30 series Plates in two directions, allowing you to adjust the sensing angle to either narrow or wide coverage.

Equipped with an LED indicator on the front, the sensor mech provides visual feedback when movement is detected, ensuring you're aware of its operation. Compatible with all Vynco Switch Plates and Lucci power switch plates it seamlessly integrates into your existing setup.

Whether it's controlling incandescent, LED, fluorescent lights, or small fans, this sensor mech is suitable for various load types. With a maximum range of 5 meters, it covers a significant area while offering flexible time control settings from 5 seconds to 30 minutes.

The lux control feature allows you to adjust the sensitivity to ambient light levels, ranging from 10 to 2000 Lux. This ensures optimal functionality in different lighting conditions, further enhancing energy efficiency.

Experience the convenience and efficiency of the Vynco sensor mech, designed to simplify your daily routines while saving energy. Upgrade your switch plates with this versatile and reliable solution.
