

## CONTEMPO LED PENDANT

SKU# 020725, 020727, 020728, 020729.

Rated Voltage 220-240V~ 50Hz

To ensure correct function and safety, please read and follow all instructions carefully before assembly, installation and use. Please keep instructions for future reference.

### Warranty

- This luminaire is covered by a 3-year warranty. The warranty is from date of purchase, not the date of installation.
- If the luminaire is not assembled and installed by a licensed electrician the warranty will be void.
- Please retain proof of purchase and evidence of installation by a licensed electrician for any warranty enquiries.
- The use of non-compatible dimmers may damage your LED luminaire and will void your warranty.
- Warranty will be void if there is any damage due to improper usage or modification to the luminaire.
- Failure to comply with the instructions in this manual may increase the risk of damage or injury and will void the warranty.

### Installation Requirements

- This luminaire must be assembled and installed by a licensed electrician.
- All wiring and installation of the luminaire must adhere to local and national wiring rules.  
e.g. AS/NZS 3000 Electrical Installations.
- This is a Class II luminaire and must be maintained during wiring and installation.

**NOTE: Cables or wires of different voltage systems (e.g. Low Voltage & SELV), must be separated by double insulation. Ensure the mains supply wire connection to the terminal block is double insulated.**

- The colour temperature selection **MUST** be made by the licensed electrician during the installation of the luminaire.

**NOTE: The colour temperature switch can only be accessed by a licensed electrician, which is located inside the luminaire**

- Select a suitable location for installation:
  - This luminaire is suitable for indoor use only.
  - The mounting point must support 2 times the weight of the luminaire.
  - If installing a luminaire in an area prone to moisture, ensure that the area is well ventilated, and an appropriately rated exhaust fan is used if required. Damage or corrosion caused by moisture is not a product fault, and as such is not covered under warranty.
- The use of a LED dimmer is strongly recommended. Please see **Highly Recommended Dimmers** section of the Specifications on Page 4 for a list of SKUs that have been specifically designed & tested for use with this luminaire.

**NOTE: Dimming may cause buzzing sounds or a slight flicker. There may be slight delays with the LED luminaire start-up or uneven light performance when more than one LED luminaire is linked together, switched ON or dimmed. This is not a product fault and as such is not covered under warranty.**

**NOTE: Some dimmers have a minimum load of 20W. Ensure the dimmer position is on the maximum setting before turning on the LED luminaire and adjust the dimmer down to your desired light level.**

**NOTE: Testing cannot account for installation variables such as variation in the mains supply voltage, cable capacitance, electrical noise, transients, surges and ripple control signals (commonly found in NSW & QLD).**

**NOTE: The information provided is correct to the best of Beacon Lighting's knowledge at the date of publication**

- Take care not to pull any electrical wires during unpacking as this may damage the connection.
- Lay out all the components on a smooth surface and make sure there are no components missing before assembling. If parts are missing, return the complete product to the place of purchase for inspection or replacement.
- Check whether the luminaire has been damaged during transport. Do not operate/install any luminaire which appears damaged in any way. Return the complete product to the place of purchase for inspection, repair or replacement.

## Installation Directions

Remove all packaging material from the luminaire and be careful not to throw away accessories that may be hidden within the packaging material. If assembly is required, place the fitting on a smooth non-scratch surface.

### FIGURE A:

**WARNING: Ensure power to the circuit you are working on has been switched OFF before commencing any electrical work**

### FIGURE B:

1. Remove the mounting bracket from the canopy by loosening the screws on the side.
2. Use the mounting bracket as a template to mark the screw positions onto the ceiling.
3. Install the mounting bracket onto the ceiling by using appropriately sized mounting screws and anchors. Ensure the mounting screws and anchors used are suitable for the mounting surface and the surrounding environment.
4. Remove the cover from the terminal box and connect the mains supply wire to the terminal block.

#### Mains Supply Wire

Neutral – Blue or Black

Live – Brown or Red

#### Luminaire Wire/Terminal Block

Blue (N)

Brown (L)

Ensure that the wires are secure and no bare wires are exposed. Install the cover back onto the terminal box.

**NOTE: This is a Class II luminaire and must be maintained during wiring and installation.**

**NOTE: Cables or wires of different voltage systems (e.g. Low Voltage and SELV), must be separated by double insulation.**

**NOTE: Ensure the mains supply wire connection to the terminal block is double insulated. A sleeve is provided with the terminal box to help achieve this.**

5. Select the colour temperature by flicking the switch inside the luminaire.

**NOTE: The colour temperature selection MUST be made during the installation as the colour temperature switch can only be accessed by a licensed electrician, which is located inside the luminaire.**

6. Install the canopy back onto the mounting bracket.
7. Secure the mounting bracket by tightening the screws on the side.

### FIGURE C:

After the installation of the luminaire is fully complete and ready to use, switch on the luminaire to test all the lighting functions and enjoy your new luminaire.

## Safety Tips

- Always ensure the power is OFF and the luminaire has cooled down before performing any maintenance, cleaning or making any adjustment to the luminaire.
- To avoid injury or damage to the luminaire, ensure that power leads and screws are secure before connecting the power.
- Select a suitable location away from liquids and hazards.
- Ensure that the luminaire does not come in contact with corrosive chemicals/solvents or abrasive cleaners etc.
- To clean, wipe with a soft damp cloth. Do NOT soak or immerse the luminaire in water or other liquids.
- The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced. There are no serviceable parts, do not attempt to dismantle or open the product.
