SKU# 099041

Thank you for purchasing this quality Lucci product. To ensure correct function and safety, please read and follow all instructions carefully before using the product. Please keep the instructions for future reference.

Warranty

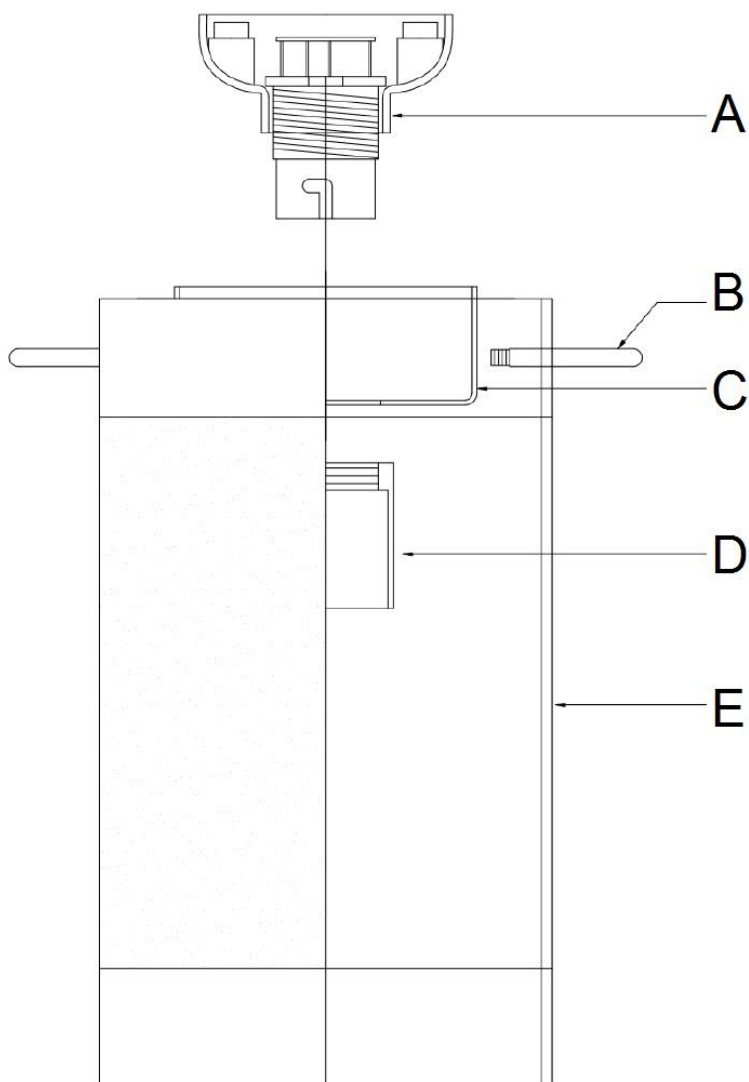

- This fitting is covered by a 12 month warranty. Please retain proof of purchase.
- Warranty will be void if there is any damage due to improper usage or modification to the fitting.

Installation requirements

- This fitting is a DIY (do it yourself) product, no electrical wiring connection or disconnection is required.
- This fitting can only be installed to an existing batten holder (not included).
Ensure the existing batten holder is in good working condition and the plastic has not become cracked or brittle.
- This product is suitable for indoor use only.
- Do not exceed the maximum globe wattage rating.
- Lay out all the components on a smooth surface and make sure there are no components missing before assembling. If parts are missing, return the complete product to the place of purchase for inspection or replacement.
- Check whether the fitting has been damaged during transport. Do not operate/install any product which appears damaged in any way. Return the complete product to the place of purchase for inspection, repair or replacement.
- Ensure power to the batten holder you are working on has been switched OFF before commencing the installation.

Installation directions

1. Remove all packaging material from the product.
2. Remove the skirt (D – not included) from the batten holder (A – not included).
3. Install the batten holder cover (C) over the batten holder (A – not included) followed by the skirt (D – not included).
Ensure that the skirt and all parts are attached securely.
4. Install the glass shade (E) over the batten holder cover (C) and secure with the rods (B).
5. Install a globe (not included) into the batten holder (A – not included). Do not exceed the maximum globe rating of 60W after the installation of this DIY product.

Safety tips

- Always ensure the power is OFF and the fitting has cooled down before performing any maintenance, cleaning, changing the globe or adjustment to the fitting.
- Handle the fitting and/or shade with care to avoid any damage or breakage.
- Ensure that the fitting does not come in contact with corrosive chemicals, etc.
- To clean, wipe with a damp clean cloth. Never soak the fitting with water.
