2. REVIEW OF OPERATIONS

Beacon Lighting is Australia's leading retail, trade, and eCommerce lighting, ceiling fan, and electrical accessories business. Beacon Lighting has several other specialist lighting businesses operating under several brands in Australia. Beacon International is an emerging international fan wholesale business based in several countries and servicing customers worldwide. Beacon Lighting also has a 50% share in the Large Format Property Fund, which owns seven retail properties in Australia.

At the end of H1 FY2024, Beacon Lighting operated the following trading businesses:

- 121 Beacon Lighting company stores.
- 2 Beacon Lighting franchised stores.
- 5 Beacon Commercial sales offices.
- Beacon International offices in Hong Kong, Germany, the United States of America, and China.
- Light Source Solutions office in New Zealand.
- Connected Light Solutions.
- Masson for Light store.
- Custom Lighting store.
- Beacon Lighting Wholesale.

The trading businesses are supported by a supply chain with Beacon Lighting operated warehouses in Brisbane (QLD), Melbourne (VIC), and a 3PL warehouse in Perth (WA). Beacon Lighting also has a Beacon Group Support Centre in Nunawading (VIC).

H1 FY2024 has been a period of rising interest rates, inflation and subdued consumer confidence. Throughout this period, Beacon Lighting has remained focused on bringing to market the latest, innovative, energy-efficient, and fashion-orientated lighting and fan products supported by outstanding service from the Beacon Lighting team. Throughout H1 FY2024, Beacon Lighting has appreciated the support of our retail, trade, and wholesale customers.

Beacon Lighting continues to have four strategic growth pillars, which are:

- Retail: focuses on store optimisation and network expansion, the latest range of lighting and ceiling fan products, inspirational store design, VIP member benefits, and rewarding experiences for all customers.
- Trade: focuses on building relationships with our trade and commercial customers through direct and referral sales. Trade is also supported by trade specific products, special trade prices, and an industry leading Beacon Trade Club.
- eCommerce: focuses on providing our retail and trade customers with engaging websites and a flexible Omni-channel experience.
- New Business: focuses on the Group's emerging retail and wholesale businesses, international sales, property investment, and new business acquisitions.

The Beacon Lighting Group result for H1 FY2024 compared to H1 FY2023 is presented in the following table:

(3) Beacon Lighting results comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board. Beacon Lighting discloses certain non-IFRS measures in this Directors' Report, that are not audited or reviewed by the Group's auditors. The Directors believe the presentation of non-IFRS financial measures are useful for the users of this financial report as they provide additional and relevant information that reflect the underlying financial performance of Beacon Lighting. EBITDA : Earnings before Interest, Tax, Depreciation and Amortisation. EBIT : Earnings before Interest and Tax.

The number one objective for Beacon Lighting throughout H1 FY2024 has been to build long-term, mutually beneficial relationships with our trade customers. Beacon Lighting has been focused on rolling out the benefits of the Beacon Trade Club and expanding the trade specific product range. Our trade customers have responded very well to our many trade initiatives, which have continued to underpin the Beacon Lighting Group sales result at a time when consumer confidence continued to be pessimistic. Beacon Lighting also opened new company stores at Mount Barker (SA), Mildura (VIC), Warrawong (NSW), and Devonport (TAS) and relocated the Cranbourne (VIC) store.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 Summary of Significant Accounting Policies

The principal accounting policies adopted in the preparation of this consolidated financial report are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated. The financial report is for the consolidated entity consisting of Beacon Lighting Group Limited (the 'Company' or 'Beacon Lighting Group') and its controlled entities (the 'Consolidated Entity' or 'Group').

Basis of preparation

This consolidated interim financial report for the 26 weeks ended 24 December 2023 has been prepared in accordance with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. This condensed consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the 52 weeks ended 25 June 2023 and any public announcements made by the Group during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001. The accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at the end of the 52 weeks ended 25 June 2023.

(a) New, revised or amended accounting standards and interpretations adopted by the Group

A number of new or amended standards became applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

IFRS Interpretations Committee - Costs Necessary to Sell Inventories (IAS 2 Inventories)

The Group is continuing to monitor developing practice in relation to the recently released IFRIC agenda item "Costs Necessary to Sell Inventories". There is judgement required in the assessment of the costs necessary to make the sale when determining the net realisable value of inventories. Based on the initial assessment the Group considers the costs are the direct selling costs associated with the sale of certain product lines. These direct costs include, but not limited to, costs such as commissions, direct advertising and marketing campaigns to sell the inventory. Based on the initial assessment, the Group would consider the impact of the IFRIC agenda decision as not resulting in a material adjustment to the assessment of the net realisable value of inventory.

(b) Historical cost convention

This interim financial report has been prepared in accordance with the historical cost convention, except for certain financial assets and liabilities (including derivative instruments). Comparative information is reclassified where appropriate to enhance comparability.

2 Segment Information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker for the Group, is the Chief Executive Officer (CEO). The Group determines operating segments based on information provided to the CEO in assessing performance and determining the allocation of resources within the Group. Consideration is given to the manner in which products are sold, nature of the products supplied, the organisational structure and the nature of customers.

Reportable segments are based on the aggregated operating segments determined by the manner in which products are sold, similarity of products, nature of the products supplied, the nature of customers and the methods used to distribute the product. The Group purchases goods in USD for sales predominately into Australia. The Group's one reportable segment is the selling of light fittings, fans and electrical accessories products.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3 Profit and Loss Information

Significant Items

Profit for the 26 weeks ended 24 December 2023 includes the following items that are unusual because of their nature, size or incidence:

Consolidated Entity	December 2023 \$'000	December 2022 \$'000
	-	-

4 Fair Value Measurement of Financial Instruments

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following table presents the Company's financial assets and financial liabilities measured and recognised at fair value as at 24 December 2023, on a recurring basis.

At 24 December 2023	Level 2 \$'000	Total \$'000
Derivatives used for hedging – net position	(185)	(185)

At 25 June 2023	Level 2 \$'000	Total \$'000
Derivatives used for hedging – net position	121	121

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

All of the resulting fair value adjustments are included in level 2.

There are no financial assets and liabilities in Level 1 and Level 3, and there are no transfers between the levels.

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Group in proportion to the number of and amounts paid on the shares held.

All shares carry one vote per share.

Ordinary shares have no par value and the Group does not have a limited amount of authorised capital.

Capital risk management

The Group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

Consistently with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt (borrowings less cash) divided by total equity.

Independent auditor's review report to the members of Beacon Lighting Group Limited

Report on the interim financial report

Conclusion

We have reviewed the interim financial report of Beacon Lighting Group Limited (the Company) and the entities it controlled during the period (together the Group), which comprises the consolidated balance sheet as at 24 December 2023, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the period ended on that date, selected explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying interim financial report of Beacon Lighting Group Limited does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Group's financial position as at 24 December 2023 and of its performance for the period ended on that date
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the interim financial report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibilities of the directors for the interim financial report

The directors of the Company are responsible for the preparation of the interim financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the interim financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the interim financial report

Our responsibility is to express a conclusion on the interim financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 24 December 2023 and of its performance for the period ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
