DESCRIPTION

Ando 1 light pendant with concrete lampholder and black/white herringbone cloth cabling and glass shade

Singularly distinctive and original in design the Ando is a perfect complement to the New Nordic/Urban Industrial range of lighting which will compliment modern, contemporary or traditional style homes . Named after the Japanese architect And? Tadao, who works primarily on houses that are built with concrete, and is renowned for excellent craftsmanship and artistry. The Ando pendant features, three new finishes including - Concrete – concrete decorative lamp holder with black and white ‘herringbone’ cloth cable. Copper - copper coloured decorative lamp holder with a clear plastic covered copper cable. Cork - cork decorative lamp holder with bronze cloth cable. Each pendant is complimented by a clear ‘science beaker style glass Think about using the Ando in a defined line, clustered, staggered, swept low or as a single statement. Mix the finishes and styles for a knock out look. [Click here](#) for installation instructions
