No. of Blades	3
Fan Blade Size	Other
Blade Pitch (Degrees)	14
Standard Ceiling Drop	28cm
Ceiling Pitch (Degrees)	18 degrees
Warranty	2 Years from date of purchase

*Price and Product details are correct only at the time of printing.

Fan Location	Indoor Use Only
Style	Modern
Colour	Brown, Silver

DESCRIPTION

Minka Aire Aviation DC 152cm 3 blade fan in brushed nickel and dark koa, not light compatible. 6 speed remote control included

The Aviation fan is an energy efficient DC fan that comes complete with a 6 speed remote control in forward and reverse and has a self learning receiver. A 31/2" and 6" downrod is included so you can adjust the height of the fan easily. There is also a 900mm extension rod available for purchase. Created by renowned designer George Kovacs, this 152cm fan has a distinctive profile powerful in looks and performance, this fan is a must for minimalist homes. The Aviation ceiling fan, with its flowing sculptural design, is available in a new distressed Koa wood look finish; this exotic wood look finish will add that special touch to any room. The distressed Koa wood look finish Aviation fan would look great in a room with other exotic woods, a Balinese, Hawaiian or tropical design theme, an eclectic look, or a minimal contemporary room as a beautiful accent. It is an unusual and attractive finish that adds a warm and inviting finish. The dark koa Aviation could also work well in homes with white interiors. The blades are made of aircraft quality polycarbonate and the Koa finish is hand-painted on the blades. The finish of the dark koa has the same warmth as aged Baltic pine. Koa wood comes from the Acacia Koa tree, which is native to Hawaii. It has a reddish cast and a beautiful, varied grain. You will see it used for musical instruments like guitars - many decorative items are also made out of it such as bowls and vases. The curved surfaces of the Aviation fan show off the highlights of the Koa wood look perfectly. [Click Here](#) for installation instructions.
