DESCRIPTION	

LEDlux Lustre 330mm 850 lumen dimmable LED flush mount with high gloss white steel body, opaque acrylic shade and clear/silver decorative trim with colour shift technology for switching between warm white/cool white/daylight

This fitting has integrated LED's inside. To select the colour temperature, you need to follow these instructions: 1. An on/off switch must be incorporated into the fixed wiring circuit before the dimmer in order to change the colour temperature to 3000K, 4000K or 5000K. 2. Turn the switch on and then turn off within 3 seconds for 4 cycles. The colour temperature of the fitting will change in the following order 3000K→5000K→4000K→3000K. 3. Select your preferred colour temperature and then turn OFF. After 8 seconds turn on again and the fitting will memorize the last colour temperature. The LEDlux Lustre colour shifting flush mount is dimmable with the following dimmers: Lucci 290998, Clipsal 32E450TM/32E450UDM dimmers only. Product specifications are from the latest shipment of these products as LED production is constantly improving. Current stock may have different specifications to what is stated on the website.
