DESCRIPTION

Lucci 60VA electronic transformer for internal use, comes complete with a 5 year in home warranty

This transformer is for indoor use only and comes with a 5 year warranty from date of purchase. The Lucci 60VA electronic transformer is suitable for dimming with approved leading or trailing edge dimmers. It has 4 pole terminals on primary side for easy looping. The transformer has a soft start which gradually introduces the power to the lamp resulting in extended lamp life. Transformer should be situated as far from downlight as leads allow, however placed too far away, voltage drop will occur.
