DESCRIPTION

Futura Mood 122cm fan and 18W integrated LED light in brushed chrome with reversible silver/wengee coloured blades (remote control compatible, sold separately)

The Futura Mood Fan is contemporary in design and comes complete with an integrated dimmable LED light. The integrated 18 watt, 1200 lumen, warm white LED light is dimmable via 3 steps and is easy to dim by switching the light on and off quickly to change the LED brightness from 100% brightness, to 60% brightness to 10% brightness. The Futura Mood is alfresco rated, so perfect for indoor use but also can be used in an undercover alfresco area with a minimum of 2 external walls. Please note while this fan can be operational via a remote (purchased separately) the light can only be dimmed via a switch on the wall or by pressing the light switch on the remote. [Click here](#) for Installation Instructions.
