DESCRIPTION	
Pac 8 light close to ceiling pendant in antique nickel, globes sold separately	

Pac is a great modern CTC range and is architectural in design with its exposed pipe look. It offers optimum light output and spread with its 8 globe design. The exposed globes will illuminate upwards, downwards and sideways, providing greater options for its suitability. The long and narrow arm placement works perfectly for over a dining table, an entrance or hallway. It is finished in a matte black, antique nickel and a plated brass finish that creates a dramatic effect on the ceiling. Our Pac range is perfect for apartment living or homes with low ceilings as it has an overall height of only 165mm. This design of light is perfect if you require more light in a room and you only have 1 light point. Globes are sold separately and for a unique look try using our new Halolux Crown silver, brass or copper globes and make your light a stunning feature.
