DESCRIPTION

LEDlux Theo round 130 lumens 3.5W LED white panel light in cool white for use under cabinets, as a step light or to highlight a walkway

The LEDlux Theo panel lights are non-dimmable and are 85mm in diameter, making them a small downlight perfect for installation on a step, or beside a step as glare is minimal due to its opal diffuser. The LEDlux Theo panel lights are great to use if you have floating steps, or if you need extra lighting under your cupboards in your kitchen. Also suitable for Pelmet or bulkhead lighting, due to its low profile and cool running temperature. [Click Here](#) for Installation Instructions.
