DESCRIPTION

Philips Hue Tap Switch, enables you to create your scenes, no batteries required.

Recall your four favorite scenes anywhere in your home at the touch of a button. Use Philips Hue Tap as a remote control and turn all your lights off at the same time. Completely wireless and works without batteries, for your comfort. With the Tap switch you can recall 4 different pre-set light scenes or switch lights on/off by pressing a button. Use the app to setup your personal scenes or scenes that are created by lighting designers. You can use the Tap switch without opening the Philips Hue App and even when your Wi-Fi is disconnected. Mount the Tap switch anywhere with the included mounting plate, or detach it and carry it with you as you move through your home. Set the right mood for every moment of the day. You can also use Philips Hue Tap switch as a remote control for your comfort. The Tap switch is powered by kinetic energy, which means that when you press the light switch you generate sufficient energy to control your smart lights. A truly wireless, battery-less, solution. This product requires a connection to the Philips Hue bridge. The average rated life of the Philips Hue Tap Switch is 50,000 clicks and has 4 configuration buttons.
