DESCRIPTION

Bayside Endeavour LED IP54 weatherproof rated black round light with sensor in cool white

The Bayside Endeavour has an integrated LED which is non dimmable. This light cannot be installed on a circuit that has a dimmer switch already installed on it. This fitting has a PIR sensor included, which continuously scans the operating zone and immediately switches the light on when it detects movement in that area. The ideal mounting height for this fitting is between 1.5 metres to 2.3 metres above the detection area. The detection area is approximately 8 metres away at an angle of 90 degrees wide. This detection area may vary depending on the mounting height and location. [Click here](#) for installation Instructions
