DESCRIPTION

LEDlux Plexi II 600mm 1300 lumen colour switch dimmable wall bracket in black

The LEDlux Plexi II has a colour changing function (3000K, 4000K, 5000K). Select the colour temperature by sliding the switch to choose your colour temperature. Please note, the power must be turned off to the light, before sliding the switch. The LEDlux Plexi II is suitable for indoor use only and is dimmable. It has been tested with Lucci LEDlux SKU# 290998 dimmer. It is also compatible with these dimmers: LUMEX Load Smart LT1D450LS; DIGINET LED Smart MEDM; Clipsal 31E2RUDM, 32E450TM, 32E450UDM, 31E2PUDM and 32ELEDM. The use of a LED dimmer such as the LucciLEDlux SKU# 290998 dimmer is highly recommended. For the best dimming range, use with the Lucci LEDlux SKU# 290998 dimmer and adjust the variable resistor at minimum and maximum dimming positions on the dimmer during the installation. The use of non-recommended dimmers may damage your LED light fitting and will void the warranty. Product specifications are from the latest shipment of these products as LED production is constantly improving. Current stock may have different specifications to what is stated on the website [Click here](#) for installation details
