## DESCRIPTION

MFL by Masson Click 360 degree detection full Sensor with white trim (For a more designer look, the trim on this product can be removed, however Masson Click Plaster Trim SKU 177092 must be used)

A calibration between Lucci Connect and MFL by Masson Click that uses the latest in smart functionality, the MFL by Masson Click White trim WIFI Sensor is an innovative new way to light your way. After installing the MFL by Masson Click connect downlight system in your home, this sensor can be wired to your lights so they come on when you go past. This can be used indoors for internal stairwells or outside for security. This is best mounted between 2.2m to 4m and has a detection area of approximately 6m away at an angle of 360 degrees wide - this can vary depending on the mounting point. This sensor has a manual override function allowing you to turn your lights on manually, if required. The MFL by Masson Click Trimless Frame Kit SKU 177092 is required for installation, this is sold separately. [Click here](#) for Installation Instructions.
