

Amazon Echo Dot 3rd Generation in Charcoal

DESCRIPTION

MEET THE ALL-NEW ECHO Amazon's most popular Echo is now even better. With a new speaker and design, Echo is a voice-controlled smart speaker with Alexa and perfect for any room. Stream songs from Amazon Music, Spotify, TuneIn and others through the built-in speaker with a fuller sound. Instantly drop in on other rooms in your home or make an announcement to every room with an Echo. Make calls and send messages between supported Echo devices and the Alexa App. Alexa is always getting smarter and adding new features and skills, like tracking your fitness, planning your commute, sounds for better sleep, and fun games for the family. With 4 far-field microphones, Alexa can hear you from across the room. And with compatible Echo devices in different rooms, you can fill your whole home with music. You can also connect to your own speakers over Bluetooth or with a 3.5 mm audio cable. Use your voice to set timers, add items to lists and create calendar events and reminders. You can also check the news, weather or traffic. Ask for sports scores, movie times, restaurant hours or information. VOICE CONTROL YOUR SMART HOME Switch on the lamp before getting out of bed, turn on the coffee maker on your way to the kitchen, or dim the lights from the couch to watch a movie all without lifting a finger. Control multiple devices with a single voice command, like switching off the TV and turning off the lights at night. CONNECT WITH OTHERS Use Drop In to instantly connect to another compatible Echo at home or send an announcement across Echo devices, such as calling the family for dinner or reminding the kids to go to sleep. You can also call friends and family who have a supported Echo device or the Alexa App. ALEXA HAS SKILLS -Alexa has thousands of skills and counting. Skills are like apps that help you do more, such as booking ride, meditating, falling asleep to rain sounds and more. Just say Alexa, help me get started with skills. Wi-Fi connectivity: Wi-Fi required. Dual-band Wi-Fi supports 802.11 a/b/g/n (2.4 and 5 GHz) networks. Does not support connecting to ad-hoc (or peer-to-peer) Wi-Fi networks. Bluetooth connectivity: Advanced Audio Distribution Profile (A2DP) support for audio streaming from your mobile device to Echo Dot or from Echo Dot to your Bluetooth speaker. Audio/Video Remote Control Profile (AVRCP) for voice control of connected mobile devices. Hands-free voice control is not supported for Mac OS devices. Bluetooth speakers requiring PIN codes are not supported. Audio: Built-in speaker for voice feedback when not connected to external speakers. 3.5 mm stereo audio output for use with external speakers (audio cable not included). Included in the Box: Echo Dot, power adapter (15W), and Quick Start Guide.
