

Lucci 200mm Designer Round Exhaust Fan with 240mm Dia Cut Out in White

DESCRIPTION

The Designer Hi Flow Exhaust Fan Collection provides powerful ventilation options tailored for bathrooms, kitchens, and other high-moisture spaces, with a choice of round or square fascia and two convenient sizes. Each fan in the range effectively clears steam, odours, and humidity to keep your environment fresh and comfortable. Designed with an integrated back draft stopper, these fans prevent reverse airflow, enhancing energy efficiency and comfort. Featuring a handy plug-and-lead setup for easy installation, and suitable for ducted applications, this collection combines functionality and convenience for effortless, reliable ventilation.

Don't forget to add our range of Lucci Air flexible ducting and ducting accessories to complete your exhaust fan installation.

PLEASE NOTE: 200mm refers to the fan motor diameter within the exhaust fan body. Please see dimensions and specifications for overall unit & fascia dimensions.
